EDUCATION

DePaul University | Chicago, IL — **Expected: Sep. 2024 - June 2028**

B.S. + M.S. in Cybersecurity, Minor in Computer Science | GPA: 4.0/4.0

Courses: IR & Forensics, Security Testing & Assessment, Security Automation, Computer Systems, Database Systems

Awards: Presidential Scholar, Double Demon Scholarship, Future Forward Scholarship, Blue Demon Impact Award

EXPERIENCE

Relativity — *Security Engineer Intern* *(Detection & IR)* — June 2026 – Aug. 2026

- Developed a **full-stack threat intelligence pipeline** that ingests **~2,000 IOCs/articles** daily from the WIZ Graph API and ThreatStream API, filters them against threat models + vulnerability data, and surfaces the **ranked findings** to managers via Slack.
- Authored and tuned **Sigma detection rules** across Microsoft Sentinel, Defender, and ThreatStream, reducing false positives.
- Triaged and resolved **30+ low-to-high security incidents**, and wrote SOC playbooks/SOPs to standardize workflows.

ComEd — *Data Engineer Intern* *(Operational Analytics)* — June 2025 – Aug. 2025

- Built a **SharePoint app, Power BI dashboard**, and **automated** data flows for arranger reallocation, projecting **$40K** in savings.
- Wrote SQL scripts to modify **1.5M+ records**, manage data warehouse access control, and create the underlying **data schema**.
- Implemented pipelines in Microsoft Fabric and Power Apps for **scheduled data refreshes**, ensuring data accuracy in dashboards.

Seva App — *Technical Project Manager Intern* *(Software Dev)* — Sept. 2024 – May 2025

- Implemented **Role-Based Access Control (RBAC)** to enforce least-privilege access and led a zero-downtime CMS migration.
- Oversaw a team of 6 developers and product owners, **ran 2 weekly sprint meetings** to ensure project alignment, created a centralized task process for better organization and collaboration, and presented updates to **non-technical stakeholders**.

ASSOCIATIONS

Security Daemons Club @ DePaul — Sept. 2024 – Present

- Developing skills through CCDC practices, workshops, and competitions, including Hivestorm, identifying and remediating vulnerabilities; engaged in CTFs, gaining skills in web exploitation, cryptography, open-source intelligence, and forensics.

Lead Keyboardist @ SMK — May 2021 – Present

- Performing Indian classical music internationally across the US and India, including a concert for a live audience of 12,000+.
- Coordinating with a core team of 5 musicians to perform at 100+ live religious gatherings and events, while managing sound setup and configuring mixers, speakers, cables, and audio equipment to ensure high-quality acoustics and sound.

PROJECTS

Blue Team Operations & Detection Homelab — *Notion* *GitHub*

- Provisioned and configured virtual machines (Windows, Linux, Domain Controller, security server) using VirtualBox to support a simulated enterprise lab environment to analyze attacker techniques and defensive controls and tools.
- Simulated credential brute-forcing and reverse-shell payloads against Active Directory to write detection alerts (Wazuh).

Network Security Architecture & Design — *Writeup*

- Designed and implemented a Dual-Path Dual-Layer firewall architecture with segmented DMZ and Intranet networks, configuring NAT/PAT, static routing, and firewall rules to secure public-facing services while isolating internal systems.

SKILLS

Languages: C, Java, Python, SQL, KQL | **Tools:** Windows, Linux, Git, Podman, Claude SDK, Graph/REST APIs, Grafana/Power BI

Security: Azure (Functions), WIZ Cloud Security, Microsoft Sentinel & Defender, Sigma Rules, ThreatStream, Abnormal AI, CI/CD
